OF EXCELLENCE & INNOVATION

Pioneer Eclipse was founded in 1978 with the introduction of a new propane burnisher technology and compatible floor coatings to the Jan-San industry. Our company continues to be recognized as a leader and innovator in floor care systems, with an emphasis on propane powered equipment, electric and battery powered equipment, innovative floor coatings and cleaning chemical products.

Pioneer Eclipse is located in Sparta, NC where our 110,000 square foot facility houses research and development, machine and chemical manufacturing, and is our primary distribution center. With a sales presence in over 40 countries and a manufacturing capacity of 30 million gallons per year of chemicals, we are well positioned to meet any customer need. Pioneer Eclipse is a wholly owned subsidiary of Amano Corporation, a manufacturing conglomerate listed on the Tokyo Stock Exchange.

- Industry leader in propane powered floor machines
- Chemical manufacturing capacity exceeds 30 million gallons per year
- Global presence in over 40 countries
- Innovator in concrete grinding and polishing technologies
- Full line of "GREEN" chemical products

See page 24 for the story on our Founder, William H. "Bill" Wilson

ENVIRONMENTALLY PREFERRED CLEANING PRODUCTS

A healthy environment is the responsibility of everyone involved with facility maintenance and management. We embrace this responsibility at Pioneer Eclipse by offering environmentally preferred cleaning products that are highly effective while limiting the undesirable effects on people and the environment.

EnviroStar is a full line of chemical floor care and cleaning products without many of the ingredients that typically cause allergic reactions and are proven to negatively impact the environment.

- | | |
|---|------------------------------------|
| NO Zinc-Based Cross Linking Agents | NO 2-Butoxyethanol |
| NO Ethylene Glycol-Based Coalescent Solvents | NO Phosphates In Cleaners |
| NO Bioaccumulative Fluorocarbon Surfactants | NO Ammonia In Cleaners |
| NO VOC's Exceeding Regulatory Limits | NO Flammable Solvents |
| NO Environmentally Toxic Preservatives | NO Non-Recyclable Packaging |
| NO Alkyl Phenol Ethoxylate Surfactants | |

Pioneer Eclipse also produces industry leading environmentally preferred propane powered floor machines. Our proprietary EPS (*Eclipse Power System*) burnishers, grinders and polishers produce a fraction of the harmful byproducts that are emitted by other competitive machines.

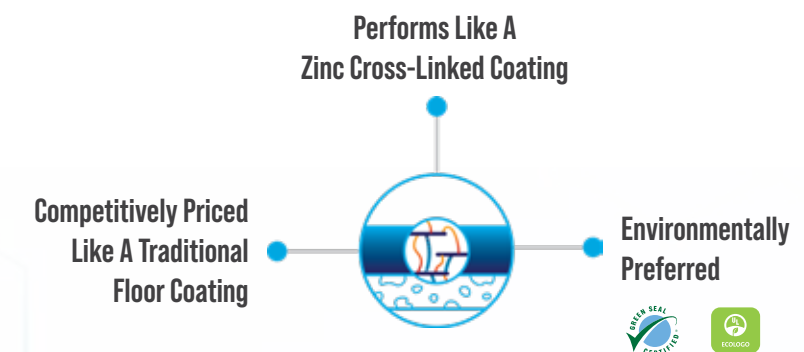

When combining EnviroStar cleaning products with EPS propane powered floor machines, it is easy to see why "green" facility managers from around the world choose the environmentally preferred products of Pioneer Eclipse.

ADVANCING FLOOR COATING TECHNOLOGY

Pioneer Eclipse uses Dualbond™ Technology to overcome the challenges of other "green" floor coatings to produce an exceptionally durable shine that is easy to apply and maintain.

Dualbond™ Technology uses calcium cross-linking with a strong covalent bond to produce a floor coating that performs like a traditional zinc cross-linked coating.

EnviroStar **Valor** ULTRA HIGH SPEED FLOOR COATING

Dualbond™ Technology is used exclusively in our EnviroStar Valor Ultra High-Speed Floor Coating.

Strong Durable Shine | Scuff & Dirt Resistant | Stain Resistant | Easy Repairs | Easy Removability

AMP™ AntiMicrobial Protection is a chemical technology in select Pioneer Eclipse floor coatings that inhibits the growth of bacteria.

Bacteria on floors is a common source of odor and stains. **AMP** is an advanced technology within the floor coating that inhibits the growth of stain and odor causing bacteria on the floor surface.

Inhibits The Growth Of Bacteria

Continuous AntiMicrobial Protection 24/7

Reduces Odors & Stains

EPA Registered Antimicrobial Ingredient

Pioneer Eclipse floor coatings with **AMP** technology provide continuous antimicrobial protection from the moment the floor coating is dry, 24/7 for the usable life of the coating. No chemical mixing or non-standard floor preparation is required. This unique application of technology inhibits the growth of odor and stain causing bacteria on a cellular level, preventing bacterial microorganisms from feeding, growing, and reproducing.

AMP AntiMicrobial Protection

is available in
OmniGuard, Atlas and Orion 25 floor coatings.
See these product descriptions on pages 8-9.

The application of floor coatings with AMP technology is not a substitute for normal cleaning practices.

AquaPhyll is the professional's choice in wall mounted chemical dispensing systems, durable enough for any custodial closet:

- Consistent and accurate chemical metering
- Pre-plumbed dispenser accompanied by pre-tipped chemical bottles for quick setup and use
- Designed with safety in mind - closed loop system
- E-Gap and Air-Gap options to satisfy regulatory standards
- Easy wall installation
- Locking cabinets to keep chemicals secure

A wide variety of concentrated chemicals are available to clean and maintain floors, glass and hard surfaces in any facility.

Look for these products with DTC packaging options.

- Multi-Surface Cleaners on pages 17 – 19
- Floor Cleaners & Maintainer on pages 11, 17
- Disinfectants on page 21

AquaPhyll Duo Cleaning and Disinfection System
Accomplish 95% of cleaning and disinfecting tasks in 2 steps.

	MPE	Portable plastic bottle. Label instructions appear in eight languages.	1.06 US gallons (4 liters)	<i>4 per case</i>	48
	GL3	Portable plastic, wide-mouth bottle.	1 US gallon (3.8 liters)	<i>3 per case</i>	60
	GL4	Portable plastic bottle.	1 US gallon (3.8 liters)	<i>4 per case</i>	48
	L4	Plastic bottle for use with hand soap dispenser.	1 liter (33.8 fl. oz.)	<i>4 per case</i>	125 or 176 (product dependent)
	D	Used in the AquapHyll Duo dilution control system.	1.06 US gallons (4 liters)	<i>4 per case</i>	48
	DTC	Used with MASP9060, MASP8155, MASP8156 dilution control dispensers.	0.53 US gallons (2 liters)	<i>4 per case</i>	88
	DTCQ	Used with MASP9240 dilution control dispensers.	0.53 US gallons (2 liters)	<i>4 per case</i>	88
	DD	Squeezable plastic bottle with integral 2 oz. (59 ml) dosing cap.	0.50 US gallons (1.9 liters)	<i>3 per case</i>	112
	RTU	Ready-to-use ("RTU") bottle with trigger sprayer.	32 US ounces (946 ml)	<i>12 per case</i>	44 or 55 (product dependent)
	Q12	Squeezable plastic bottle with flip top spout.	32 US ounces (946 ml)	<i>12 per case</i>	44 or 55 (product dependent)

Building Your Brand With Private Labeling

Private labeling Pioneer Eclipse products is your opportunity to leverage our expertise in R&D, Marketing, Regulatory, Procurement, and Manufacturing. We can help you expand your product line and to grow your business.

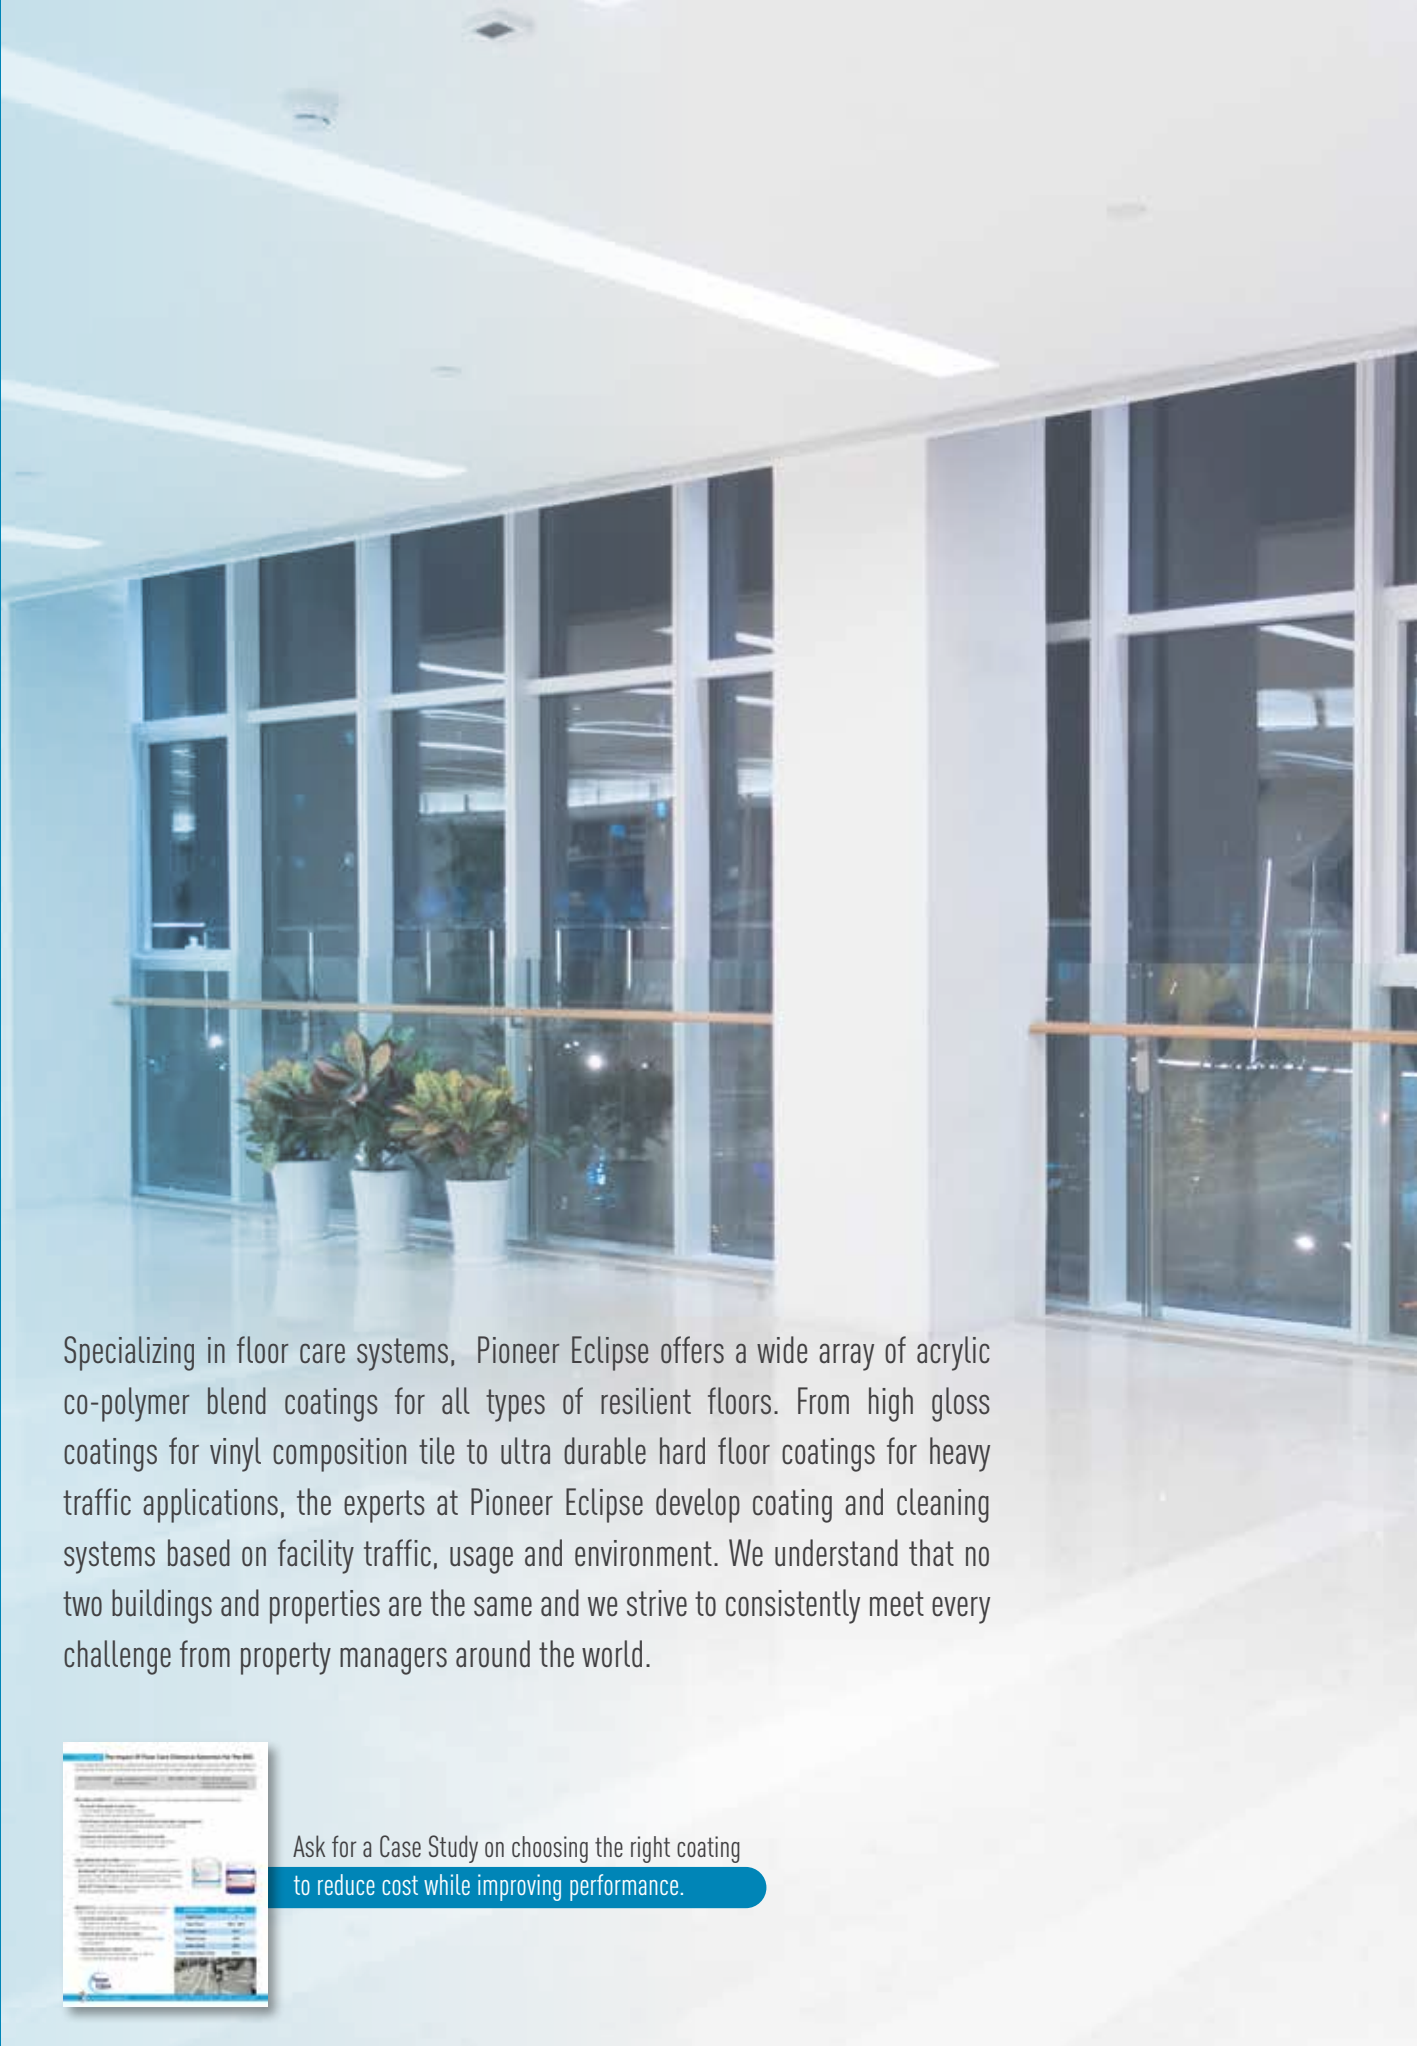

WHY CHOOSE PRIVATE LABELING?

- Expand Your Machine And Chemical Offering
- Differentiate Your Products To Increase Value
- Grow Brand Awareness
- Improve Customer Retention

THE PRIVATE LABELING SERVICES WE OFFER:

- Expert Consultation On Choosing The Right Products
- Floor Machines Specified To Meet Your Customer's Needs
- Chemical Products Customized With Color And Fragrance To Differentiate Your Products
- Marketing And Design Services For Product Labeling And Sales Materials
- Manage The EPA Supplemental Registration Process for Disinfectants
- Manage The Certification Of "Green" Products

Talk to your Pioneer Eclipse Sales Representative to learn more about how we can help build your brand with private labeling.

Specializing in floor care systems, Pioneer Eclipse offers a wide array of acrylic co-polymer blend coatings for all types of resilient floors. From high gloss coatings for vinyl composition tile to ultra durable hard floor coatings for heavy traffic applications, the experts at Pioneer Eclipse develop coating and cleaning systems based on facility traffic, usage and environment. We understand that no two buildings and properties are the same and we strive to consistently meet every challenge from property managers around the world.

Ask for a Case Study on choosing the right coating to reduce cost while improving performance.

LUMEN

When the most important decision making factor is price, Lumen is the answer. These products are formulated using high performance materials, but with a budget in mind.

The Floor Care Experts at Pioneer Eclipse have developed coating and cleaning systems based on facility traffic, usage, and environment. These products are

- Reliable and affordable solutions for all flooring needs.
- Versatile and suitable for various floor traffic conditions.
- Durable and maintain a “wet look” over time.

Coatings are available in a variety of solids for any of your floor care needs.

Lumen L122 Floor Coating Fast Drying

- Wet look
- High gloss burnish response
- Repairable and durable

Available Packaging*
122FS, 122MPE

Lumen L142 Floor Coating Cost Effective

- High gloss burnish response
- Repairable and durable
- High gloss with or without burnishing

Available Packaging*
142FS, 142MPE

Lumen L143 Floor Coating Wet Look

- High gloss burnish response
- Repairable and durable

Available Packaging*
143FS, 143MPE

Lumen L144 Floor Coating High Performing, Economical

- High Gloss
- Repairable and durable
- Ideal for a variety of traffic conditions

Available Packaging*
144FS, 144MPE, 144DR

Lumen L556 Heavy Duty Floor Stripper Effective Results

- Fast acting stripper for any application
- 25% actives

Available Packaging*
556FS, 556MPE

Lumen L217™ Floor Cleaner/Maintainer Effective Daily Cleaner and Maintainer

- Enhances burnish response
- Removes dirt and scuffs

Available Packaging*
217FS, 217MPE

Lumen L350™ Neutral All Purpose Cleaner All Purpose Cleaner

- Effective on all washable surfaces
- Fragrant
- Economical

Available Packaging*
350FS, 350MPE

Pioneer Eclipse's line of Concrete & Terrazzo chemicals are formulated to address every aspect of professional hard floor restoration and maintenance. For densifying, sealing, protecting, and maintaining, this product line offers perfectly matched chemicals for ultimate hard floor care.

CLS TopShield Floor Protector

High Performance Penetrating Protectant

- Creates a breathable, ultra-hard, water repellent and dust-repelling surface
- Guards against stains
- Can be burnished to a high gloss

Available Packaging*
421FS

HardCore Concrete Densifier

Deep Penetrating Densifier

- Deep penetration into surface, reduces porosity to harden surface and increase durability
- Prolongs shine and stain resistance

Available Packaging*
422FS, 422GL3

LockOut Floor Protector

Resists Stains & Enhances Gloss

- Creates a breathable, ultra-hard, water repellent and dust-repelling surface
- Guards against stains
- Can be burnished to a high gloss
- Not for use on floors previously treated with CLS TopShield

Available Packaging*
423FS, 423GL3

ArmorPro Hard Floor Protector

Resists Stains, Enhances Gloss

- Penetrating surface treatment
- Breathable, ultra hard surface
- Water and dust repellent

Available Packaging*
428FS

ReClaim Concrete Cleaner/Maintainer

pH Balanced Daily Cleaner

- Maintains stain, oil and water repellancy of floor guard
- Enables more effective cleaning performance

Available Packaging*
354FS, 354MPE, 354DD, 354GL3

Eclipse Anti-Slip

Makes Floors Less Slippery Especially When Wet

- Maintains natural color & appearance of substrate
- Indoor/Outdoor
- Ready To Use

Available Packaging*
3048Q12

EnviroStar Mild-Acid Washroom Cleaner

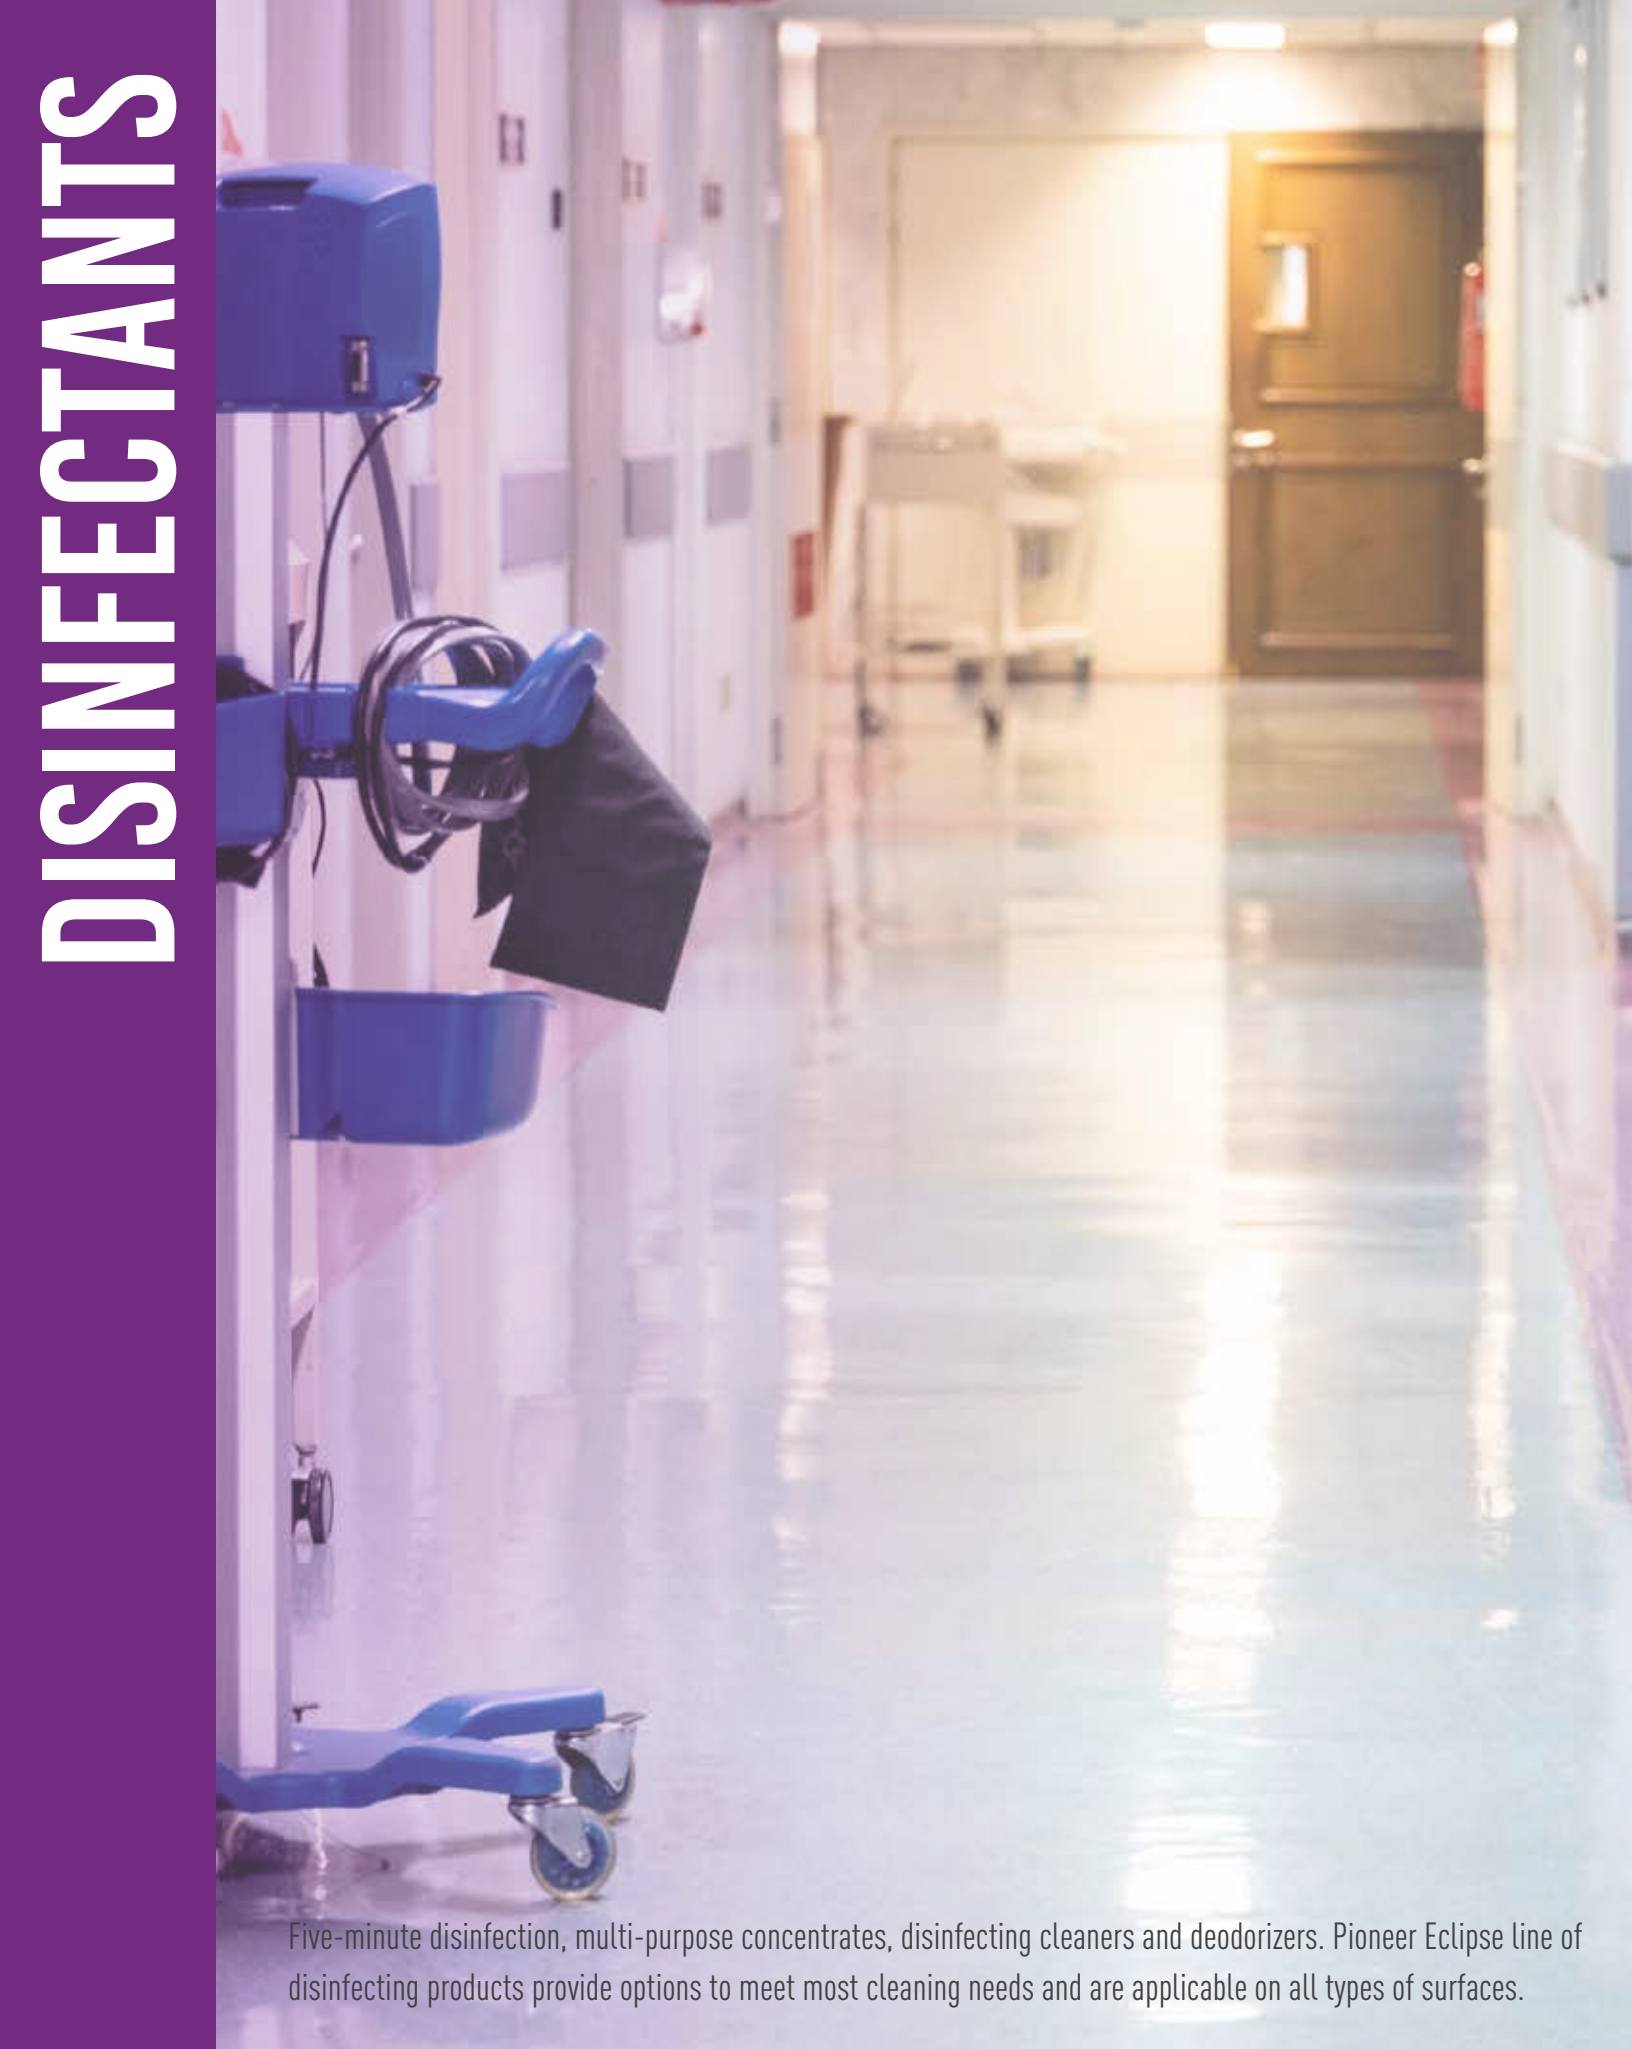

Powerful, Mild-Acid Cleaner

- Environmentally Preferred
- Effective cleaner on all surfaces
- 2.5 pH

Available Packaging*
333MPE, 333DTC, 333DTCQ

*See Product Packaging Conventions on Page 6

DISINFECTANTS

Five-minute disinfection, multi-purpose concentrates, disinfecting cleaners and deodorizers. Pioneer Eclipse line of disinfecting products provide options to meet most cleaning needs and are applicable on all types of surfaces.

CONCENTRATE

MeridiClean All Purpose Cleaner & Disinfectant

Low Dilution Neutral Disinfectant

- Effective against SARS-COV-2
- 5 Minute contact disinfectant
- Broad spectrum germicidal, bactericide, fungicide, virucide
- Won't stain or dull coating
- Non-corrosive to fixtures/equipment
- Deodorizes

Available Packaging*
625D, 625MP, 625FS

NeutraQuat 256 Germicidal Detergent

Multi-Purpose, Concentrated, Neutral Detergent And Deodorizer

- Economical disinfectant
- Effective against SARS-COV-2
- Kills Hepatitis B
- Bactericide, disinfectant, fungicide, mildewstat, virucide
- Removes calcium and other hard water minerals
- Safe on common metals

Available Packaging*
613MP, 613DTC, 613DTCQ

Triton XLC Bathroom Cleaner & Disinfectant

Multi-Purpose, Concentrated, Neutral Detergent And Deodorizer

- Economical disinfectant
- Effective against SARS-COV-2
- Kills Hepatitis B
- Bactericide, fungicide, mildewstat, virucide
- Removes calcium and other hard water minerals
- Safe on common metals
- Effective for every day use

Available Packaging*
614MP, 614DTC, 614DTCQ

READY TO USE

MSD Multi-Surface Cleaner & Disinfectant

General Purpose Cleaner And Deodorizer

- Effective against SARS-COV-2
- Kills 99.9% common household germs
- Disinfectant, Bactericide, Virucide
- Ready to use formula

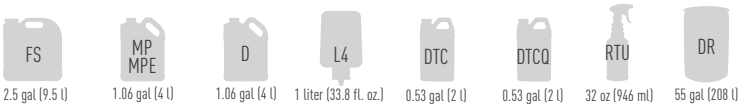

Available Packaging*
626RTU

Non-Acid Bowl and Bathroom Disinfectant Cleaner

A Ready To Use Disinfectant

- Cleaner and deodorizer
- Disinfectant and virucide
- Pleasant fragrance

Available Packaging*
3048Q12

*See All Product Packaging Conventions on Page 6

Whether commercial or residential, Pioneer Eclipse offers a complete line of chemicals specifically formulated for all types of wood floors. We have professional grade water-based coatings applicable to light traffic, low sheen floors to high gloss, high traffic floors.

Crucial to putting down a new wood floor finish is a sealant that will optimize finish coat adhesion while also protecting against tannin bleed. When recoating a floor, a dust-free bonding agent is equally important. And finally, cleaning and maintaining a wood floor with these specially formulated products will help give any wood floor lasting durability and beauty.

FINISHES

WoodStar

Residential Wood Floor Finish

- Durable acrylic coating
- No change in color or appearance of floor
- Low odor
- Quick dry time

Available Packaging*
Satin: 702SFS, 702SMPE
Semi-Gloss: 702SGFS, 702SGMPE
High Gloss: 702HGFS

TimberGuard Varsity

Designed for Sports Floors

- Clear and Non-yellowing
- Quick dry time
- Easy to apply

Available Packaging*
High Gloss: 719HGFSPE, 719HGPL5PE

SEALERS

TimberSeal

Optimizes Adhesion,
Protects Against Tannin Bleed

- Specially formulated to prevent tannin bleed
- 34% solids
- Flows easily and provides a solid build layer
- Seal and finish in one day

Available Packaging*
709GL3

TimberBond

Dust-Free Re-Coating
For All Wood Floors

- Ensures good bond between finish layer and the floor
- High coverage rate
- Dries quickly, saving time

Available Packaging*
717GL3PE

WoodPrime

A Sanding Sealer to
Optimize Adhesion

- Minimizes tannin bleed
- Low VOC formula
- Quick dry time

Available Packaging*
701FS, 701MPE, 701DR

CLEANERS

TimberClean

All Purpose Wood Floor Cleaner

- Cleans without leaving a residue
- Use with automatic scrubber or mop
- Evaporates quickly to protect wood surfaces

Available Packaging*
713GL3PE

TimberClean Deep Scrub

Industrial Grade Cleaner

- Cleans aggressively
- Can be used with an automatic scrubber
- Evaporates quickly to protect wood surfaces

Available Packaging*
714GL3PE

TimberClean Daily

A Daily Spot Cleaner

- Cleans without damaging the finish
- Does not penetrate wood
- Leaves no residue
- Environmentally preferred

Available Packaging*
712Q12

2.5 gal (9.5 l)

1.06 gal (4 l)

32 oz (946 ml)

1.0 gal (3.8 l)

WILLIAM H. "BILL" WILSON INVENTED "SHINEOLOGY"

when he was 27 years old. And not long after that he built this company around it.

He founded Pioneer Eclipse in 1978 with the introduction of a new high-speed propane powered burnisher, along with a new acrylic polymer floor coating that complimented the gloss potential of high-speed buffing. Using a new, more powerful propane powered engine, he engineered a machine to spin the buffing pad at 2,000 RPM. Bill then formulated Total Eclipse, a durable floor coating that when buffed at high speed produced the highest gloss level of vinyl floors at the time. He dubbed this new combination of machine, chemical, and process as "shineology", and it remains the ultimate goal in floor care today.

Bill Wilson was noted throughout the floor care industry around the world as a leading innovator. He was gifted with an unparalleled drive for excellence at any task he took on, whether it was cleaning floors at night as a teenager or engineering a burnisher to make those floors look perfect.

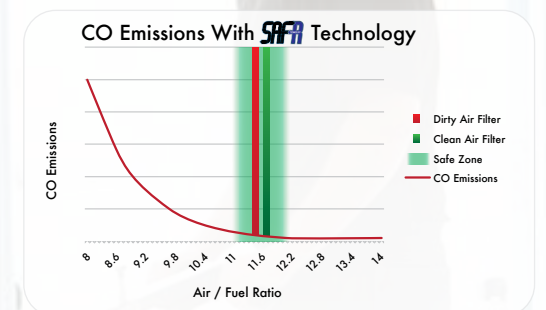

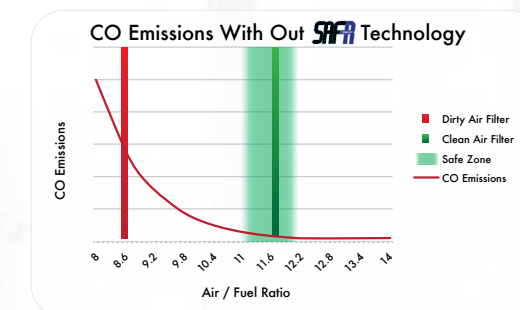

Pioneer Eclipse continues that drive for Excellence & Innovation today as we serve the floor care and janitorial industry world-wide. We are the world leaders in propane powered floor care machines, and we intend to continue our founder's legacy of "shineology" far into the future.

BUILDING THE SAFEST PROPANE POWERED FLOOR MACHINES FOR OVER 40 YEARS!

Pioneer Eclipse has been producing the industry's safest propane powered floor care machines for over 40 years. We were the first to introduce Safe-Fill cylinders, catalyzed mufflers, emissions monitoring systems, and proprietary carburation.

To go even further and provide the highest level of protection we developed **SAFR™ Technology**. The SAFR (*Steady Air Fuel Ratio*) Technology system monitors the pressure between the air filter and the carburetor. As the air filter becomes dirty, the pressure decreases. With **SAFR™ Technology**, this change in pressure results in a reduction in fuel delivered to the engine. The net result is a Steady Air Fuel Ratio no matter the air filter condition.

Regardless of your application or the model of machine you use, you can rest assured your Pioneer Eclipse propane powered machine is well equipped to keep your operators safe.

Pioneer Eclipse Propane Safety Features:

- ✓ SAFR Technology
- ✓ EcoSense Emissions Monitoring
- ✓ SafeStop Smart Fuel Monitor
- ✓ Proprietary Carburation & Valve System Reduces CO Output
- ✓ 3-way Catalytic Muffler Reduces CO, NOx, and HC
- ✓ Optimized Fuel Metering
- ✓ Safe-Fill Propane Fuel Cylinders
- ✓ Operator Presence Automatic Shutoff System

ENGINE CONVERSION FOR PROPANE POWERED MACHINES

Since developing and manufacturing the first commercially available propane-powered floor machine in 1978, Pioneer Eclipse remains the global leader in propane-power technology. Utilizing in-house Engineering and Manufacturing capability we convert gasoline powered engines to propane power for manufacturing customers.

INDUSTRY LEADING EMISSIONS

Pioneer Eclipse proprietary SAFR fuel system technology is a closed-loop system to maintain optimal air-to-fuel ratio even under harsh conditions. EPS propane engines also include an emissions monitoring system and a proprietary 3-way catalytic muffler system that exceeds EPA requirements.

34% LESS FUEL CONSUMPTION

All EPS converted propane engines include specific carburation, fuel regulator, and modified valve systems engineered to provide optimal power while consuming 34% less fuel than comparable machines.

LONGER ENGINE LIFE

The modified valve system of an EPS propane engine improves fuel combustion and internal lubrication – two essential factors in efficient power delivery and longer engine life. Additional features of EPS engine design contributing to longer engine life include optimized ignition, carburation, and lubrication systems.

LOWER MAINTENANCE COSTS

Operating and maintaining an EPS propane engine with Pioneer Eclipse's Sentinel synthetic motor oil reduces the oil change cycle as much as 400%. Built in EPS engine operation monitoring systems help ensure long work cycles and lower maintenance costs.

TRAINING & SUPPORT

Pioneer Eclipse is well established as the industry leader in propane-power technology. To share this expertise and enable customers to maximize productivity of their propane powered machines, we offer a variety of technician training programs.

Pioneer Eclipse Propane Certification Program

The Pioneer Eclipse Propane Certification Program consists of a series of online courses, each course followed by an assessment. Students must score at least 80% on each assessment to demonstrate a required level of knowledge in order to pass the class.

Pioneer Eclipse Factory Certified Technician School

The Pioneer Eclipse Factory Certified Technician School is a hands-on comprehensive 3 day course focused on all aspects of propane equipment maintenance and repair. The curriculum is designed to provide a working knowledge of all Pioneer Eclipse propane-powered equipment.

The Technician School includes training on technical theory, propane specific tune ups, propane safety, troubleshooting, special tools, and more.

BURNISHERS

Pioneer Eclipse engineers and manufactures a diverse line of burnishers that include propane powered ultra-high speed (UHS) machines, corded electric machines, and UHS battery burnishers.

Pioneer Eclipse propane powered machines have set the industry bar for over 40 years. These machines feature powerful 18HP industrial engines converted to propane gas operation with our proprietary **Eclipse Power System (EPS) technology**. This technology allows these machines to consume less fuel and require less maintenance than any other machines in this class.

- 34% Less Fuel Consumed
- 5 Times Longer Oil Change Intervals

All of Pioneer Eclipse's propane machines come equipped with SAFR technology to keep CO levels low in all operating conditions, and offer optional EcoSense and SafeSense emissions monitoring systems.

If you have experienced inconsistent results with battery powered burnishers, then you haven't used Pioneer Eclipse line of machines. SteadyOne™ technology is built into every Pioneer Eclipse battery burnisher, automatically adjusting head pressure to changing floor conditions and changing pad condition, producing consistent results every time.

▶ Propane Burnishers

▶ Battery Burnishers

CORDED FLOOR BURNISHERS

225BU
A solid and **durable electric burnisher** available with dust control.

- Performance: 15,000 ft²/hr (1380 m²/hr)
- No slip, micro-V belt drive transmission
- Pad speed 1,500 or 2,000 rpm

Pad Size	Dust Control	Pad Speed	Weight
20" (51 cm)	N	1500/2000 rpm	76 lbs (35 kg)
20" (51 cm)	Y	1500 rpm	76 lbs (35 kg)

BATTERY FLOOR BURNISHERS

300BU
Ultra High Speed Battery Burnisher
UHS burnishing performance available in three sizes.

- TPPL Batteries: The most reliable on the market
- SteadyOne Technology: Auto adjusting pad pressure for consistent burnishing
- Quiet: 68 db (A)
- Performance: Up to 35,000 ft²/hr (3200 m²/hr)

Pad Size	Pad Speed (No Load)	Pad Speed (Load)	Weight
20" (56 cm)	2200 rpm	1500 rpm	600 lbs (118 kg)
24" (66 cm)	2200 rpm	1500 rpm	610 lbs (123 kg)
27"/28" (69/71 cm)	2200 rpm	1500 rpm	660 lbs (299 kg)

350BU
Ultra High Speed Battery Burnisher
Lithium ion battery technology delivering best in class burnishing performance.

- True Propane-Like Burnishing Performance
- Most Durable Battery Burnisher Available
- Lowest Cost of Ownership

Pad Size	Pad Speed	Weight
28" (71 cm)	Variable Speeds 930 rpm - 1,150 rpm	417 lbs (189 kg)

Lower Cost of Ownership

- 5 year battery warranty
- Saves cost by eliminating battery replacements

No Battery Replacements

No Service Downtime

Lower Cost of Ownership

Quiet Running Machine

- <70 dBA

PROPANE FLOOR BURNISHERS

400BU
A **basic workhorse** with the performance and safety features of higher priced machines.

Pad Size	Pad Speed	Weight
21" (53 cm)	2000 rpm	187 lbs (85 kg)
28" (71 cm)	1500 rpm	200 lbs (91 kg)

420BU
Upgraded burnisher with features designed to meet the needs of demanding professionals.

Pad Size	Pad Speed	Weight
21" (53 cm)	2000 rpm	215 lbs (97 kg)
24" (61 cm)	1800 rpm	221 lbs (100 kg)
28" (71 cm)	1700 rpm	234 lbs (106 kg)
40" (2 x 53 cm)	1850 rpm	340 lbs (154 kg)

440BU
A **fully optioned premium burnisher** to satisfy discerning floor care professionals.

- "Operator Presence" automatic shutdown safety feature
- Advanced operator ergonomics

Pad Size	Pad Speed	Weight
21" (53 cm)	2000 rpm	242 lbs (97 kg)
24" (61 cm)	1800 rpm	248 lbs (100 kg)
28" (71 cm)	1500 rpm	262 lbs (119 kg)

FLOOR MAINTENANCE MACHINES

Polishing, scrubbing, stripping, carpet cleaning... Large schools and malls, offices, environmentally sensitive spaces... Pioneer Eclipse offers floor maintenance machines for every floor type.

Our corded electric rotary machines provide versatile function and efficiency for smaller spaces and spot repairs. When it comes to stripping large areas on a tight schedule, our propane powered machine removes coatings faster than any other machine on the market.

▶ instructional video

ROTARY FLOOR MACHINES

225FP

Corded electric floor machine delivers high torque for consistent polishing.

- Performance: Triple Planetary Drive
- 17 in: 6,000 ft²/hr (557 m²/hr)
- 20 in: 7,000 ft²/hr (650 m²/hr)

Pad Size	Pad Speed	Weight
17" (43 cm)	175 rpm	91 lbs (41 kg)
20" (51 cm)	175/320 rpm	95 lbs (43 kg)

FM Floor Maintainer

Versatile electric machine for **polishing, scrubbing, grinding & carpet cleaning.**

- Optional 4 gallon solution tank
- Dual planetary gear drive

Pad Size	Pad Speed	Weight
17" (43 cm)	175 rpm	102 lbs (47 kg)
20" (51 cm)	175 rpm	107 lbs (49 kg)

STRIPPING MACHINES

250ST

A **high speed orbital** electric machine for tough strip or scrub applications.

- Performance: 3600 orbits per minute
- 12 in x 18 in pad
- 2.5 Gallon solution tank

Pad Size	Pad Speed	Weight
12"x18" (30.5 x 45.8 cm)	3600 opm	125 lbs (57 kg)

440ST

This highly productive stripping machine **removes coatings faster** than any other machine on the market.

- Dual counter-rotating drivers
- Quick-change pads and brushes
- Simple and easy operation

Pad Size	Pad Speed	Weight
30" (76 cm)	325 rpm	365 lbs (166 kg)
38" (96 cm)	325 rpm	435 lbs (197 kg)

GRINDERS & POLISHERS

▶ instructional video

Pioneer Eclipse's line of grinding & polishing machines offers solutions for a wide range of restorative and maintenance procedures. Electric or propane powered, all of these machines come standard with onboard solution tanks and accept a variety of pad and diamond disc driver plates.

The propane powered machines are powered by industry leading engines equipped with EcoSense emissions monitoring as well as SAFR Technology to keep CO levels low in all operating conditions. These powerful 18HP industrial engines have been converted to propane gas operation with our proprietary **Eclipse Power System (EPS) technology**. This technology allows these machines to consume less fuel and require less maintenance than any other machines in this class.

225GP

A Multi-Purpose Hard Floor Machine for **polishing, stripping, sanding, and coating removal.**

Floor Types: All hard floors, including wood

- Performance: 6,000 ft²/hr (557 m²/hr)
- 17 in (43 cm) Triple planetary gear drive
- 2-Speed, 1.5 HP motor
- Driver speed 175 or 300 rpm
- 2.5 Gallon no-spill solution tank
- Dust containment port for dry applications
- Splash/Dust skirt for wet applications

Driver Size	Pad Speed	Weight
17" (43 cm)	175/300 rpm	95 lbs (43 kg)

420GPHD

A heavy-duty propane powered machine for **grinding, polishing, and burnishing.**

Floor Types: Concrete, terrazzo, marble

- Performance: 18HP EPS™ engine
 - Grinding/Polishing: 11,000 ft²/hr (1022 m²/hr)
 - Burnishing: 25,000 ft²/hr (2322 m²/hr)
- Pad Pressure: 85lb (38kg) – 180lb (82kg)
- 7 Gallon (26.5 liter) on board water supply
- RokBak™ deck for easy diamond and pad installation
- Dust containment port for dry applications

Driver Size	Pad Speed	Weight
21" (53 cm)	Polishing: 1000 rpm Burnishing: 1500 rpm	380 lbs (172 kg)

450GP

A multi-purpose propane powered machine for **grinding, polishing, and burnishing.**

Floor Types: Concrete, terrazzo, marble

- Performance: 18HP EPS™ engine
 - Grinding/Polishing: 6,000 ft²/hr (557 m²/hr)
 - Burnishing: 18,000 ft²/hr (1672 m²/hr)
- Pad Pressure: 200lb (91kg) – 500lb (227kg)
- 9 Gallon (34 liter) on board water supply
- RokBak™ deck for easy diamond and pad installation

Driver Size	Pad Speed	Weight
2x17" (2 x 43 cm)	Grinding: 210 rpm Polishing: 420 rpm	880 lbs (399 kg)
